Meet Amp Genie, World's First Signal Sensing Automatic Remote

Ben | January 3, 2023

JUST PLAY

The Joy of Music, Effortlessly

**CES BOOTH
#17289**

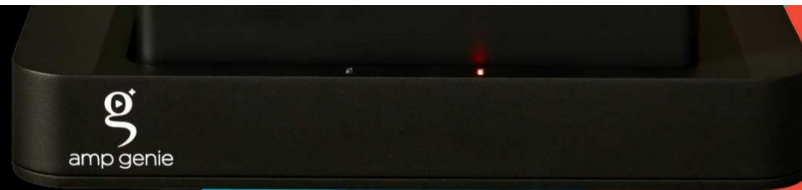

ampgenie.com

Amp Genie makes its consumer electronics debut at CES to bring the joy of music, effortlessly back to consumers. A first of its kind, Amp Genie is a signal sensing, automatic, home audio receiver remote that “listens” for your music from any wired source, and instantaneously powers up and configures your home receiver – so you hear your music immediately. Whether you use voice control, a streaming app, a handheld remote, or old fashioned play button-pushing, Amp Genie gets your music playing through your home audio receiver faster and easier than ever before. Amp Genie is available in matte black; MSRP \$399.

JUST PLAY

The Joy of Music, Effortlessly

CES BOOTH

#17289

ampgenie.com

Come by CES booth #17289 to be entertained by all the ways you can trigger Amp Genie to get your music to play. Push a button, speak a voice command, play an old-school Discman, see a professional singer trigger Amp Genie with his voice, and more. Exclusive, CES show only deals available at the booth.

“This product was made by Integrators, for everyone”, said Brian Staller, Founder of Amp Genie. “In the 10 years that we’ve been installing home theater systems both our installers and clients were frustrated that there wasn’t a better receiver integration solution that married the high sound quality of a receiver with the convenience of a smart speaker. I created Amp Genie to bring back the joy of music, effortlessly.”

“I like Amp Genie because it’s simple and easy to use and will be reliable for years to come,” said Amp Genie dealer John Cuello of Wired AV. “The current Smart Home trend is that clients are choosing the easier route with smart speakers, losing audio quality. Integrators prefer surround amplifiers due to the high sound quality, and Amp Genie marries both, great sound and ease of use.”

Made By Integrators For Everyone Invented in the field by a veteran AV integrator.

Pairs perfectly with Any Audio Source – includes integrated cradle to hold a Sonos Port or Sonos Connect, and works with any Analog, SPDIF, or Optical Audio Source, including turntables, tape decks, DJ decks, Jukeboxes, Karaoke, Reel-to-Reel, PC Audio, TV Audio, etc.

Supports all 8 Major Receiver Brands: Factory pre-programmed IR database supports most **Yamaha, Denon, Marantz, Sony, Onkyo, Pioneer, Anthem** and **AudioControl** receivers.

Easy Install with All Cables Included: No training required and is everything included in the box for an easy 5-minute no-tool installation.

Simple and Reliable in Any Environment: Works for years without service. Instant bootup, no apps, no drivers, no smart device and no network needed.

Upon Detecting Sound, Amp Genie Powers Up and Sets Receivers Up for Instant Audio Playback: Saves time and frustration by eliminating extra steps and button presses required for playback.

3-Year Warranty: Amp Genie’s solid state circuitry is designed for simplicity and reliability, just like a factory remote. Amp Genie comes with a 3-year warranty, but is expected to last much longer.

Amp Genie gives you the Joy of Music, Effortlessly so you will enjoy your favorite home system more often. Available at www.ampgenie.com. Dealer wholesale pricing available.

About Amp Genie

Amp Genie is an audio automation hardware manufacturer dedicated to bringing the joy of music effortlessly to AV integrators and end users. Amp Genie was created in the field by a Veteran AV Integrator and Business Owner who observed the need for a seamless integration between home theater receivers and audio sources. Amp Genie is Headquartered in Marina Del Rey, CA. Learn more at www.ampgenie.com
